Duval County, Fla. — The Florida Department of Health in Duval County (DOH-Duval) observes National HIV Testing Day on June 27, 2024, to promote HIV testing and treatment available to the community. DOH-Duval provides HIV testing, PrEP, and other HIV-related services at the following locations:

Comprehensive Care Center (CCC) and Medical Mobile Unit
Central Health Plaza
515 West 6th St.
Jacksonville, FL 32206

South Jacksonville Health Services
3225 University Blvd. South
Jacksonville, FL 32216

JASMYN
929 Peninsular Place
Jacksonville, FL 32204

For more information or to schedule an appointment call 904-253-1040.

Protect yourself. Get tested. Know your status. Learn what's next.

Knowing your status is the first step toward effective HIV prevention and treatment. Individuals at [risk of contracting HIV](#) can reduce their risk for HIV by using appropriate prevention strategies, such as taking pre-exposure prophylaxis (PrEP), using protection, and getting tested regularly. Contact a health care provider to find out if PrEP is recommended for you.

If you test positive for HIV, seeking HIV treatment is critical. Antiretroviral therapy can help people live longer, healthier lives. People living with HIV who take antiretroviral medication as prescribed and have an undetectable viral load cannot transmit HIV to their sexual partners. Both PrEP and HIV treatment medications are now available as pills and long-acting injectables.

We have the power to both prevent and treat HIV. Visit [KnowYourHIVStatus.com](#) to learn about testing options in your area or to order a free at-home HIV testing kit mailed directly to the

address of your choice. For more information, call 1-800-FLA-AIDS, or [800-352-2437](tel:800-352-2437); en español, 1-800-545-SIDA; in Creole, 1-800-AIDS-101.
